

Professionals working tough jobs require tough tools. Kapro's 985T Titan™ was built to meet the hefty demands of the job site and provide stellar accuracy. It features a specially designed, shock-absorbing surface along its entire length. Tap it, knock it – apply force however you need to while working with brick or tile with confidence. The 985T is designed handle-free for a heavy-duty, full size & weight with the added benefit of easy cleaning on messy job sites.

The Titan™ boasts an impressive accuracy of 0.5 mm/m (0.0005 in/in), even under pressure from trowel or mallet blows. It features a magnified vial for a superior read for any inside or outdoor work site. The finely milled base ensures precision each. Kapro vials are individually hand-calibrated by experts and thus have achieved the coveted VPA Germany tested & certified seal, and our lifetime accuracy guarantee.
