379 MOISTURE METER

Sensors \\ Moisture Measurement

Features

Detection: Moisture

Units: °C | °F

Measurement range:

- Timber moisture: 6% to 60%
- Building material moisture: 1.5% to 33%

Measurement accuracy:

- Moisture: ± 2%
- Temperature: ±2°C (±4°F)

8 calibration scales for various wood types

Hold function for measurement freeze

Ergonomic rubber overmold for improved gripping

Applications

Electrical \\ Drywall Installation \\ Woodworking \\ Tiling
